Missouri has eight federally designated State Metropolitan Statistical Areas (SMSAs) that include 35 Missouri counties encompassing large urban areas. The state also has 22 Micropolitan Statistical Areas comprising 22 Missouri counties containing smaller cities. The remaining 58 counties are predominately non-urban or rural. Using the 2020 population estimate as a baseline, in a normal distribution about 75% of the behavioral health related events would occur in the Metropolitan areas, 11% in the Micropolitan areas, and 14% in the rural areas. The following chart illustrates that some adverse events are more prevalent in the metropolitan areas, exceeding the 75.1% metropolitan population percentage, while other events are more prevalent in the rural areas, exceeding the rural population percentage of 13.6%. Most agencies have reported their data by county of residence. Law enforcement agencies have reported arrest and traffic crash data by county of occurrence.

- Multi-county Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
- Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
- In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.
- DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

- Multi-county Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
- Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
- In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.
- DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

- Multi-county Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
- Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
- In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.
- DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

- Multi-county Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
- Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
- In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.
- DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
- In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.
- DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

- Multi-county Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
- Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
- In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.
- DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

- Multi-county Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
- Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
- In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.
- DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.

1	Multi-county Kansas City hepatitis and TB case reports are included in Jackson County totals and all Joplin case reports are included in Jasper County totals.
2	Hospital counts for alcohol, drug, and mental disorders are based on diagnosis codes determined by the national Healthcare Cost and Utilization Program. Individuals are counted only once in each applicable diagnosis group regardless of number of times receiving hospital services in the calendar year.
3	In 2019 the National Incident Based Reporting System replaced the Uniform Crime Reporting system for Missouri crime and arrest reports. 2019 crime data might not be fully comparable to crime data in prior years.
4	DSS Children's Division reports do not capture reasons for removal but document conditions present. There are often multiple conditions and factors considered when a child is placed out of the home. Only the substance use conditions are included in this profile.
